December 1, 2011

Dear Shooter,

The 2012 Northern Rockies Machinegun and Cannon Shoot will be held on June 1st, 2nd, and 3rd.

The shoot is sponsored by the Wyoming NFA Shooters Club. Profits from the event are given to the Casper Mountain Volunteer Fire Department. Ground covers for your firing position are strongly encouraged to keep the Wyoming dust down and to facilitate clean-up. We will be utilizing aerial and reactive targets again as well as stationary targets. We anticipate the ability to use tracer and incendiary ammo. We will not be using vehicles as targets this year. The cattle were unable to digest the shards of plastic and metal left behind from all the prior targets. Adequate substitute targets are being planned.

Attending a shooters meeting remains **mandatory** before you can access the firing line and they will be held twice daily, one at 0730 and one at noon for late comers. There will also be an extra shooter's meeting on Thursday evening, May 31st for those who want to attend. Again, no registered shooter will be permitted to get on the firing line until they have attended at least one shooter's meeting. Safety remains the major factor, and without this safety briefing, you are unsafe!

As many of you know, there was a tragic death of an 8 year old in 2008 at a gun shoot. This youngster was firing a mini-UZI. In response to this incident, we are going to ban the RENTAL of machine pistols and short machineguns that have an overall length with the stock folded of 18" or less. If there is a gun whose length is less than 18" with the stock folded but when extended is greater than 18", it is a banned rental gun. This removes such guns as a mini or micro UZI, an MP5K, or MAC. Full size Uzi's are OK. This does not prevent you from shooting your own firearm, but we do not want spectators firing these types of guns. Any questions about this should be directed to Ron Slack. This decision is made in the interest of public safety.

For those of you that need to fill out a 5320.20, the actual address is Garrett Ranch, 19415 South State Highway 487, Casper, WY 82604.

You may set up your space on Thursday, May 31st. Enclosed are registration materials. Please feel free to tell your shooting friends who may not have received this letter to check out our web site to get a registration form (or copy the enclosed one for them). Fees for the weekend are \$200 per shooting spot which includes 1 shooters badge, \$75 for each additional shooters badge. Also, DVD videos of the 2007 shoot are still available for purchase (\$5) and will be at the shoot. Tee shirts and caps will also be available again this year. Deadline for registration is May 1st, so we can set the firing line.

If you have any questions or are interested in having a vendor site, please contact me at shoot@wyomingnfa.com or at 307-797-0283.

Sincerely,

Ron Slack
